

ANNUAL DAY

(30th August, 2014)

Organized by
Computer Science & Engineering Society (CSES), ISM Dhanbad

On the eve of Annual Day of the Department of Computer Science & Engineering organized by the CSE Society (CSES) on 30th August 2014 the audience of the penman auditorium enjoyed a spellbound evening coupled with music, drama, dance, Awards and many other performances. It was a motivating as well as recreating time for both of the students, faculty members and all other staffs as well. The erstwhile Penman Auditorium has witnessed this event with all present there. Prof. D. C. Panigrahi, Director, Indian School of Mines, Dhanbad was the Chief Guest of the function. The function begins formally with the melodious invocation song. Prof. D. C. Panigrahi along with the office bearers of CSE Society of the Department proceeded towards lightening the lamp amid anchors highlighting the significance of fire in our daily lives.

Dr. Chiranjeev Kumar, Head of the Department, CSE and President, CSES delivered the welcome address. He extended his words of gratitude to all the hardworking people dedicated to the progress of the department for the past 17 years of excellence. Taking the advantage of the occasion, he mentioned the tremendous amount of revolutionary changes took place in the department throughout these years. Some of them are: innovations related to teaching, launching of first volume of “BufferedReader - the departmental magazine”, other initiatives like ACM ISM Student Chapter, CodeISM, etc. that are progressing at an astounding rate, as well as the

hidden extracurricular talents of our own students and staff members. “If you want to leave footprints in the sands of time, don’t drag your feet. Walk with determination and confidence. The footprints will automatically form.” the closing line of his speech had such an intense influence on the students that their eyes sparkled with motivation.

Mr. Tarachand Amgoth, Assistant Professor, CSE and Faculty-Advisor, CSES has briefed the audience about about CSES & its activities. He threw light upon its objectives and functionalities. He informed the gathering regarding the Interaction Programme with CSE Alumni organized by the society on 14th June 2014 at Bengaluru. He highlighted the success of bringing all current students of the CSE department within CSES. He also highlighted the steps carried out to connect our alumni under this society and getting overwhelming response from their side as well. He referred the events organized and being organizing under this society for overall development of the students.

Dr. Sukomal Pal, Assistant Professor, CSE and Faculty Sponsor of ACM ISM Student Chapter gave an introductory speech on the ACM ISM Student Chapter. He discussed the objectives of ACM Student Chapter at ISM with a focus to increase general awareness on computing and establishing a computing culture among ISMites. He gave an account of different activities of the Chapter in this direction by highlighting the events organized by the Chapter in this calendar year like Ode-De-Code 1.0 and 2.0 (coding competition), Web

Designing Contest, Technical Workshops etc for all the students of ISM. He also mentioned about the huge participation of ISM students in the workshop on “Recent Trends in Information Technology” organized in association with TCS, Kolkata.

Dr. Chiranjeev Kumar mentioned, during his speech, that the department has come up with a magazine named “*BufferedReader*”. The name of the magazine was coined by 2014 batch which will always remain as a souvenir of their journey at ISM. *BufferedReader* is an exceptional proof that the literary flame is burning bright within our students. They have proved that the literary prowess can go hand in hand with technical mastery, thus enabling accomplishment of the department’s goal of all-round development of students. The first volume of the departmental magazine “*BufferedReader*” was released by our Director Prof. D. C. Panigrahi during this event.

Release of Departmental Magazine *BufferedReader* v1.0

Mr. Aikansh Garg (2011 Batch), an alumnus of our department and currently working at Amazon, Hyderabad, was conferred with the “*Alumnus of the Year 2013*” Award. This award was constituted by CSE Society to be awarded every year to an alumnus of the Department who contributed to the overall growth of the Computer Science and Engineering department. While addressing, he mentioned 3 key points to success: ‘Think big’, ‘Work hard without shortcuts’, and ‘Keep having fun’.

Mr. Aikansh Garg received the “*Alumnus of the Year 2013*” Award

SRI, Bengaluru received the Best Company Award of the year 2013-14

Soon after his speech, a special recognition to SRI, Bengaluru was announced for a year 2013-14. This award was also constituted by CSE Society to be presented every year to a company contributed most for the overall growth and placement of the students of Computer Science and Engineering department. Due to the busy placement season, the representative from SRI Bengaluru could not attend the programme although they acknowledged the recognition in words “*Thank you for the recognition. Please convey our wishes to students from all the batches. We wish them to choose SRI Bengaluru as their first and preferably the last company to work with in their careers. We will surely have a long association with all of you*”. The students, who have received PPOs from SRIB, received this honor of recognition on behalf of SRI Bengaluru.

All the senses were aimed at the stage, as our Director proceeded to deliver his speech. His words were indeed highly inspiring and stirred a lot of enthusiasm among the students, as evident from the very first line of his speech by referring to CSE students as the “*Best Brains of the Institute around 300 KM radius*”, and the entire auditorium echoed with applause. He gave examples of great men of the history like Copernicus, Louis Braille, and Galileo who with a lot of hard work and determination achieved the zenith of success at a very young age in their lives; and encouraged the students to do the same.

The formal session of the CSE day ended with Mr. Rishabh Kumar, the Secretary of CSE Society delivering the vote of thanks.

The evening took a turn as ‘night of cultural events’ began, and the auditorium was flooded with cheering ups and applauds throughout the event. From the solo dance performance on a classical song, to the breaking bone western dance form; from the mesmerizing musical performances to the short enactment of ‘Life as an Engineer in ISM’, to the controversial but eye opening mime act on Article 377.

The cultural events indeed displayed a wide variety of talents of the young bright brains of the department.

Prize winners of various events were then rewarded and recognised.

The day concluded with the group photograph sessions of all the active societies working hand in hand for the progress of the Department of Computer Science & Engineering.
